

Create A Database In Cloudant DB

Team ID:PNT2022TMID41116

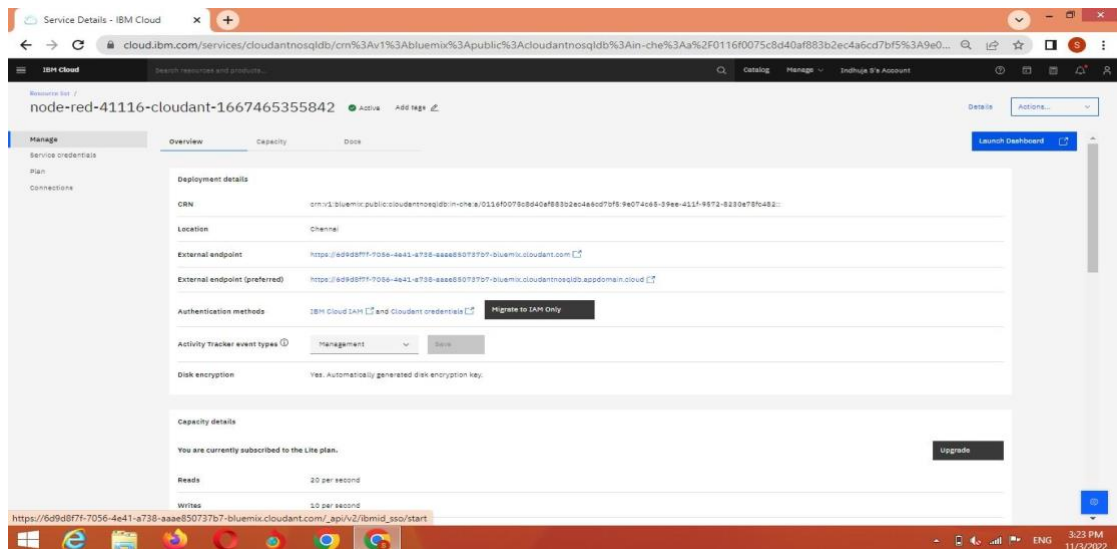

Project : IOT Based Safety Gadgets For Child Safety Monitoring & Notifications

Aim:

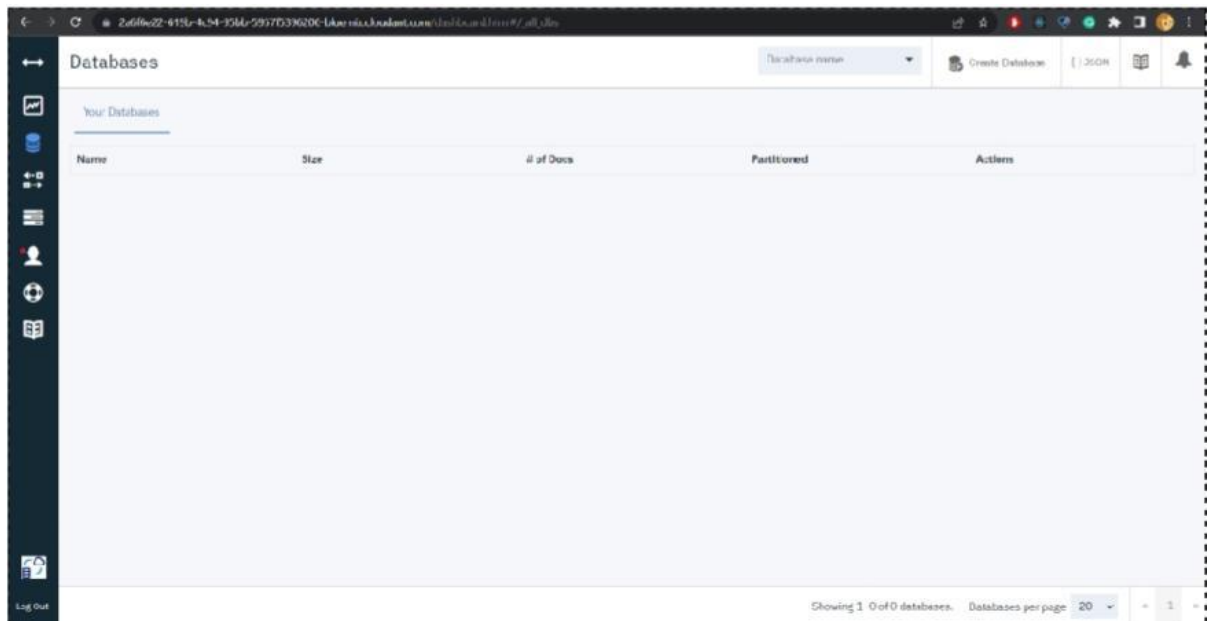

To create a database in Cloudant DB to store location data.

Steps:

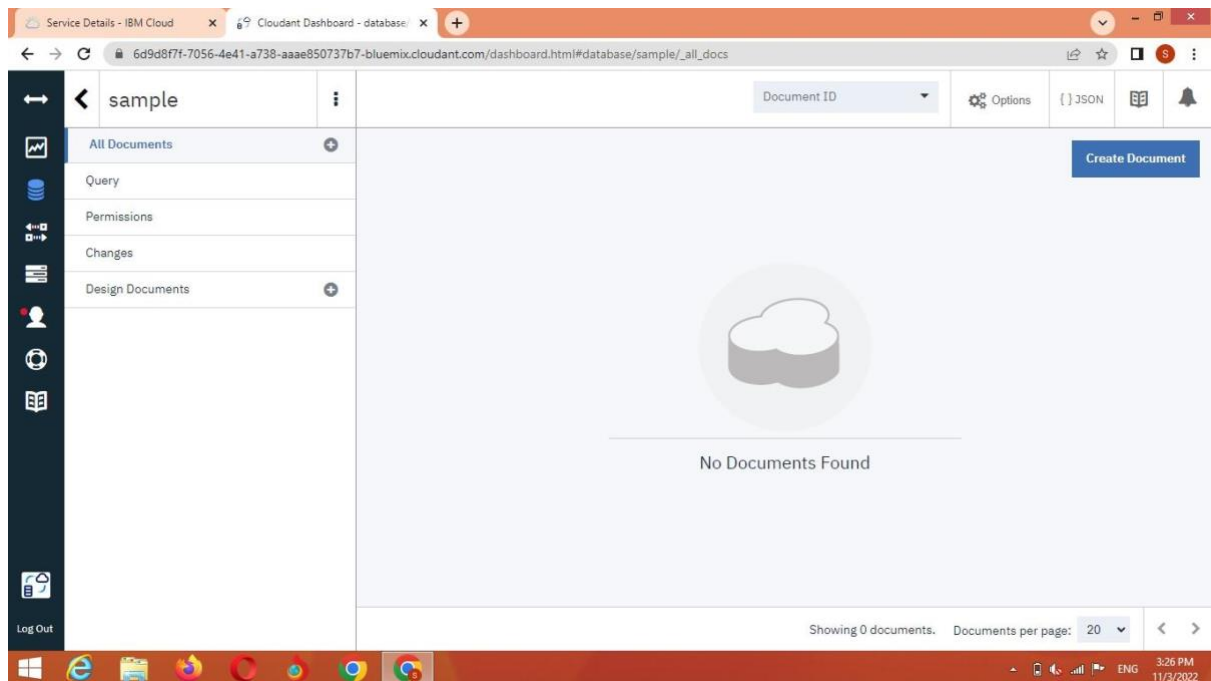

- ✓ Logged in to IBM Cloud account
- ✓ Navigated to `./resources`
- ✓ Clicked on the "Create Resource +" button
- ✓ Searched for "Cloudant"
- ✓ Chose the "Lite Version" and clicked on "Create"
- ✓ The Cloudant database resource was created successfully

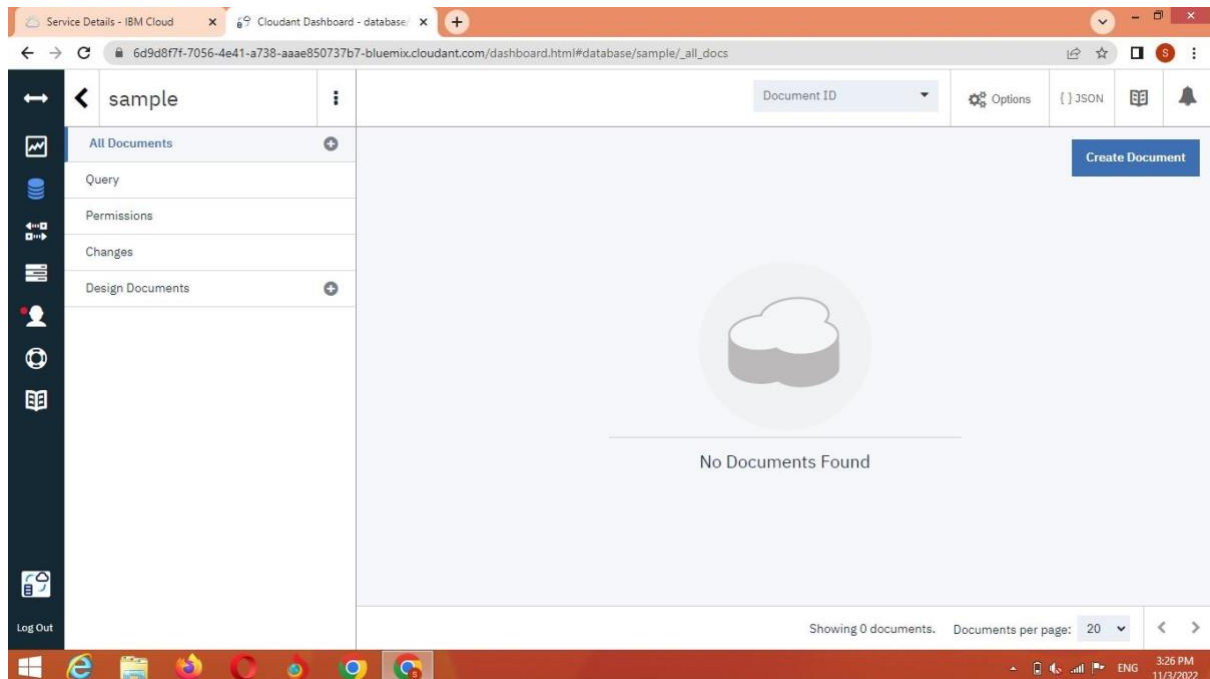

- ✓ Clicked on Launch Dashboard.

- ✓ Clicked on "Create Database". Entered "Sample" as the database name and the "Non-partitioned" option.

✓ The database “Sample” was created successfully.

Result:

A database to store the location data was created successfully on CLOUDANT DB.
